ROOSEVELT WELCOMED

Half a Million People Greet the President In City of Pittsburgh.

GRAND CELEBRATION OF THE FOURTH.

After an Elaborate Parade, the Vast Crowd Is Addressed by the Chief Executive of the United States.

Pittsburg, July 5.—Half a million persons greeted President Theodore Roosevelt in Pittsburg. They came not only from Pittsburg and Allegheny, but from the scores of industrial towns within 100 miles of the city.

It was the distinguished guest's first visit to Pittsburg as president, and his welcome was most enthusiastic. From the Union station to the speakers' stand in Schenley park, nearly four miles away, it was one continuous cheer.

The weather was all that could be desired, with the sunshining brightly and the temperature not too high. President Roosevelt reached the Wilkinsburg station of the Pennsylvania railroad at 8:05 a.m.

The point which is within the city limits a local reception committee headed by George T. Oliver, boarded the train. The run into Union station consumed 20 minutes, during which time the members of the committee

were introduced to the presidential party, Attorney General Knox, who is a Pittsburgher, making the party acquainted. As the train passed Shadyside station, a railroad signal communicated the fact to Hampton, Battery E. of the Pennsylvania national guard, stationed at Bedford Springs Union station. The guns of the battery immediately commenced to boom the president's salute of 21 guns. The last gun of the salute was fired as the president stepped from his car at Union station. The president was then escorted to his carriage.

Those who occupied the carriage with President Roosevelt were City Recorder J. O. Brown, United States Attorney General P. C. Knox and George B. Cortelyou, secretary to the president. The other carriages in waiting were promptly filled by the reception committee. The bugler of Sheridan troop sounded the assembly call, which was a signal for General John A. Wylie, commander of the military escort to order the movement of the column. The marchers numbered 3,000 men, representing the Eighteenth regiment, the Fourteenth regiment, the Tenth regiment, who saw Philippine service, Sheridan cavalry troop of Tyrone, the Boys' brigades and independent military organizations.

Signal Given.

At a signal from the bugler of the Sheridan troop, General Wylie and staff moved from their position at the Liberty avenue approach to the Union station to the head of the column, and directed the start, and in a moment the whole line was in full swing on the 4-mile route.

Among the prominent guests who rode in carriages were Governor W. A. Stone, Congressmen Dalzell, Acheson, Jack and Graham. Interest centered in the unique feature of the Re-

publican and Democratic candidates for governor, Judge Samuel W. Penneybaker and Robert E. Pattison, respectively, both of Philadelphia, riding together in one carriage. They were accompanied by George T. Oliver and Albert J. Barr, editors of Republican and Democratic newspapers, respectively, of this city.

Flags and bunting fluttered everywhere along the course of parade. People crowded the windows of the tall buildings yelling themselves hoarse in greeting the nation's chief executive. The greatest ovation came as the line passed up to the top of Grant's hill. Tall buildings on either side were fine vantage points for spectators. When the head of the military escort reached a position opposite the speakers' stand it was halted and stood in company front with arms at present. As the president and those in carriages passed in review the band struck up the stirring strains of "Hail to the Chief."

The music was fairly drowned by the cheering of the multitude of 200,000 persons in the stand and occupying vantage points on the amphitheater-like hills which rose in front.

Following the band piece, the United German societies of Allegheny stationed at one side of the stand and made up of 600 voices broke into singing "The Star Spangled Banner."

At the close of the song the invocation was pronounced by the Rev. John H. Prugh. The Declaration of Independence was read by General Willis J. Hulings, and then followed the oration of the day by the president of the United States, Theodore Roosevelt.

President's Address.

The president said:

"You have just listened to the reading of the great document which signals our entry into the field of nations 126 years ago. That entry was but the promise which had to be made good by the performance of those men and their children and their children's children. Words are good if they are backed up by deeds.

"The Declaration continues to be read with pride by us year after year, and stands as a symbol of hope for the people of all the world, because its promise was made good, because its words were supplemented by deeds, because after the men who signed it and upheld it had done their work, the men who come again after them, generation after generation, did their work in turn. The Declaration of Independence had to be supplemented in the first place by that great instrument of constructive and administrative statesmanship — the constitution under which we now live. The document promulgated in 1788, under which Washington became our first president, supplemented, necessarily supplemented, the Declaration of 1776. We showed that we had a right to be free. We showed when we constructed the more perfect union of the old Confederacy, that we knew how to use that right as it needed to be used.

"And when 70 years and more past and then there came again upon the nation the days of iron need. There came again the days that demanded all that was best, the life itself of the bravest and truest of the nation's sons. And with Sumter's guns awakened our people and America until then the incarnate genius of peace, sprang to our feet, with sword and with shield, a helmet in which queen among nations, when the thunder of the guns called the nation's children they sprang forward to do the mighty deeds which, if left undone, would have meant that the words to which we have listened would have rung as meaningless platitudes.

"Those were the two great epochs in the nation's history, the epoch of the founding of the Union and the epoch of its preservation; the epoch of Washington and the epoch of Abraham Lincoln. Those two generations had the greatest tasks to do, but each generation has its tasks, and woe to the generation which regards the deeds of the mighty men of the past as an excuse for thus failing to do in its turn the work that it finds ready.

"We have had our tasks to do in the last four years, or rather we have had, as every generation must have, many tasks to do, tasks affecting us abroad, and one of those tasks being done it has signalled our entry into a larger world.

"And it is most appropriate that on this Fourth of July, this anniversary of the birth of the nation, it should be our good fortune to have promulgated the declaration establishing peace in the Philippines and the acknowledgement to the army of the praise so richly due our fellow Americans who wear the uniform of the United States, for all that they have done in the tropic islands during the past four years.

"We said Cuba should become a free republic and we have kept our word. To have turned Cuba over to

the hands of its own people immediately after the withdrawal of the Spanish flag would have meant ruin and chaos. We established a government in the islands; we established peace and order; we began to provide for the payment of the Cuban troops who had fought against the misrule of their oppressors; we instituted a public school system, modeled upon that which has been so potent a factor in our own national progress. We introduced a system of orderly justice to succeed one of irresponsible and arbitrary despotism. So that any man, rich or poor, weak or strong, could appeal to courts and know that he would receive his rights."

After the address, the German singers sang "America," the vast audience joining in the words of the final verse. Following this "The Lord's Day" was sung in German. The benediction was then pronounced by Rev. Dr. T. N. Boyle, presiding elder of the Pittsburg district, Methodist Episcopal conference. The exercise concluded just one hour.

The president immediately afterward re-entered his carriage and, surrounded by the Sheridan troop was driven to the residence of H. C. Frick on Homewood avenue, where he was tendered a luncheon and reception, which was joined in by a number of prominent Pittsburgh captains of industry. As the president left the park Battery B fired the national salute of 45 guns from a tall hill top.

FATAL EXPLOSION.

Robert Golz Locates a Leak in the Gas Meter With a Match.

St. Louis, July 5.—Two bodies lie buried beneath a mass of debris, the result of an explosion which followed the effect of Robert Golz to locate a leak in a gas meter with lighted match. The body of his wife, Mrs. Martha Golz, and daughter, Martha, are entombed in the wrecked building. Golz was blown from the basement through a grating to the sidewalk 10 feet away. His injuries may prove fatal. Tillie Stine, a domestic, fell with the timbers and rafters from the second story and was extricated by the police a few minutes after the explosion. She was unconscious and bodily burned and bruised, but she may recover.

Will Use Wireless Telegraphy.

Washington, July 5.—It is quite probable that the signal corps of the army will use a system of wireless telegraphy in the coming joint army and naval maneuvers. General Greeley has designated a special board to consider what experiments in communication will be attempted at those maneuvers by the army and the question as to whether the forces will attempt to use a wireless system in their operations will be decided by it. The navy department does not expect to use wireless telegraphy in the maneuvers, as it has not yet decided upon a system. Lieutenant Hudgings of the equipment bureau has been abroad for some time looking into the various wireless systems developing in Europe, and is expected to arrive home very shortly, which should enable the department to make selection of some system to experiment with.

Suicide of Rev. Peabody.

Decatur, Ills., July 5.—The Rev. D. C. Peabody, until July 1 rector of St. John's Episcopal church, blew his brains out at his home. He recently resigned the charge because of ill-health, and is believed to have been mentally affected. He came here from Mobile, Ala., a year ago, having been in the ministry 25 years. He had been rector of churches at Rockford, Ills., and Pittsburg, Pa. He leaves a widow, son and two daughters.

Money In Tramp's Rags.

Shelby, O., July 5.—A man between 60 and 70 years of age was instantly killed by a Baltimore and Ohio passenger train. He was the worst specimen of the tramp fraternity imaginable. His clothes were patches and rags. He was taken to the morgue, where the clothes were searched and \$200 found sewed up in the lining.

Rain in Texas.

San Antonio, Tex., July 5.—A splendid rain has fallen here, the precipitation being an inch and a half. This is the first rain for over a month, and while it came too late to benefit corn, it will be vastly beneficial to cotton and grass. From reports received here the rain was general in this section.

Accident to Boatman.

Henly, England, July 5.—Nason, third Trinity's stroke, dislocated his shoulder. The accident alters the aspect of the contest for the grand challenge cup. The Canadians are now the favorites.

Colored Centenarian Dead.

Manchester, O., July 5.—Joseph Thomas, a colored pioneer, died here. He was more than 100 years old.

PANAMA CANAL.

Negotiations For Treaty to Acquire the Right to Be Opened.

Washington, July 5.—The negotiations for the treaty between the United States and Colombia, which will acquire the right to build the Panama canal, will begin in about one week. Minister Concha of Colombia has conferred with Secretary Hay on the preliminaries of the negotiations. Mr. Hay will be out of the city for the next few days and on his return the negotiations will begin. Minister Concha has been fully clothed with authority to proceed with the treaty. The main features of the treaty are pretty well settled as the protocol signed some time ago, was quite full in setting forth the prospective arrangement in case congress acted favorably on the Panama route.

The amount to be paid Colombia for a relinquishment of exclusive rights to the United States will be \$7,000,000 in gold payable on the exchange of ratifications of the treaty, and in addition Colombia is to receive an annuity at the end of 14 years to be determined by mutual agreement at that time. This annuity is expected to be \$600,000 a year, as the immediate payment of \$7,000,000, covering the period of the next 14 years is considered a basis for fixing the annual rental at \$600,000.

In transferring the rights of Colombia to the United States the language used by the act of congress will be followed to a considerable extent, and there will be a transfer of such jurisdiction over the six miles zone as will permit the exercise of American authority with American courts, sanitary officers, police, etc. The question of transferring complete sovereignty is about the only point which could raise the obstacles to the negotiations, but it is expected that this point will be avoided as the act of congress appears to contemplate a transfer of jurisdiction and not a transfer of political sovereignty.

AMNESTY PROCLAMATION.

President Roosevelt's Words Read to Americans and Filipinos.

Manila, July 5.—President Roosevelt's amnesty proclamation was read at noon in English and Spanish from a flag draped stand on the Luenta, after a parade of 6,000 Americans and Filipinos.

Will Tour Yellowstone Park.

Toledo, July 5.—The covered caravan built for George Ketcham, owner of Cresceus, in which he intends to tour the Yellowstone park, has been brought from the shops. Mr. Ketcham and his family started on a two days' trip for the purpose of testing the vehicle. The wagon is a complete house on wheels, with complete kitchen, dining room and servants' quarters. Beds, stoves and utensils are carried with the wagon as is also a boat large enough to accommodate a dozen persons.

Will Wed an Actress.

Toledo, July 5.—An announcement has just been made of the coming marriage of Miss Marion G. Cullen, former leading lady of "Shore Acres" to Percival Jones, oldest son of Mayor Jones. Miss Cullen took the part of Helen Barry in "Shore Acres." Her sister, also a member of the "Shore Acres" company, will be the bride. The ceremony will take place at St. Peter's church in Boston, on Aug. 19.

Caught the Lad.

North Baltimore, O., July 5.—Glen Datson, 15, was arrested for burglarizing the house of Charles Gillispie. Several times money has been missing from the house during the family's absence, and this time Gillispie lay in wait, and the lad, supposing that all of the folks were away, proceeded to help himself, after having secured the key from its accustomed place.

Had a Good Night.

London, July 5.—The bulletin regarding King Edward's condition posted at Buckingham palace says: "The king had a good night, and, indeed, slept better than at any time since the operation. The wound now gives less trouble and his majesty can move in bed with greater ease. His majesty's appetite has improved."

To Give Schley Credit.

New Orleans, July 5.—In the state legislature the Smith bill has passed the senate and gone to the governor. It bars all histories in the Louisiana public schools that do not give complete credit to Admiral W. S. Schley for the victory of Santiago. Governor Heard undoubtedly will sign the bill.

Fourth at Columbus.

Columbus, O., July 5.—Columbus celebrated the Fourth with a big parade. It was a civic and military parade. The parade formed at Buttles and High and marched south on High to the grounds of the Elks' carnival. Big crowds saw the parade.

BOLD ACT OF BANDITS.

A Chicago, Rock Island and Pacific Railway Train Is Held Up.

SCENE OF CRIME NEAR CHICAGO.

Express Messenger Kane Is Shot Through the Groin by One of the Desperadoes — One Robber Captured.

Joliet, Ills., July 5.—The Chicago, Rock Island and Pacific railroad's through express train No. 5, bound for Omaha and Denver, and which left Chicago at 10 p. m., was held up by robbers at Dupont, Ills., an hour later. Express Messenger Kane was shot through the groin by one of the robbers, and is in a critical condition. The local safe was forced open, but the amount of the booty secured is not known. Charles Nessler, who climbed over the tender of the engine and told the engineer and fireman to stop the train, has been arrested. Nessler, however, is believed to be the unwilling accomplice of the robbers, as he obeyed their commands at the point of a revolver. The detectives are hot on the trail of the robbers. A special train is waiting at Coal City for a pair of bloodhounds which are to be rushed to the scene of the hold-up.

According to Nessler's story, only two robbers were concerned, though the detectives think there were more. Nessler is about 22 years old, of frank appearance and intelligence, and claims to be of respectable parents. He says he went to Niles Center recently to visit a cousin. He started home, and having no funds was beating his way, taking the train at Chicago. At Englewood they climbed on the bumpers back of the tender, and had scarcely secured this position when two men also climbed up. They said nothing in particular until Midlothian station was reached. Then one of the men climbed over the end of the tender upon the coal and ordered Nessler to follow. Both men had adjusted black masks to their faces. At the point of a revolver, Nessler was told to go forward to the cab and tell the engineer to stop the train half a mile beyond. Thoroughly frightened, he did so.

The engineer and fireman regarded the request as a joke and laughed. "Look up there," said Nessler. The trainmen did so and saw two revolvers pointed toward them. This is no joke," said the robber. "Stop the train or I'll kill you." The engineer shut off the steam and brought the train to a standstill at Dupont switch. The engine crew were taken back under guard, Nessler being compelled to remain in the cab and keep quiet. Demand was made on the express messenger and baggage to open the door of their car under threats to blow it up with dynamite. The door was opened and the robbers rushed in. A struggle ensued and Messenger Kane was shot in the groin.

The robbers attempted to open the through safe, but were unsuccessful. The local safe, however, was forced open. It is not known what money was taken. It is reported that a bag of jewelry and some money was found in the safe, but railway officials say practically nothing of value was secured. The robbers disappeared. Kane was taken to Linley park for treatment, and later removed to Englewood hospital. The police here have a satchel and a quantity of dynamite found in a car near the scene of the robbery. None of the passengers were molested.

TRAIN ROBBERY.

Bandits Hold Up a C. R. I. & P. Express Near Chicago.

Chicago, July 5.—At the general offices of the Chicago, Rock Island and Pacific railway a dispatch was received of a daring attempt at train robbery. The dispatch is as follows: "Train No. 5, which left Chicago at 10 p. m., was held up near Durant, Ills., 19 miles from Chicago. Express Messenger Kane was shot through the groin by one of the robbers. The bandits undertook to cut off the two front cars of the train. It is thought that there were three robbers in the party. One of them, who came over the tank and undertook to give orders to the engineer is under arrest, and has been taken to Joliet. The messenger was taken to Englewood for surgical treatment. It is not thought his injuries are fatal."

Engineer Goodell and Conductor Coffey were in charge of the train. The dispatch is signed by Conductor Coffey.

Cattle, intoxicated by "distillery slop" fed them, stampeded in the Chicago stockyards, killing many.

COTTON Stuffs Must Go!

Of course there is plenty of wearing time ahead, summer has just begun, but stores must be four-handed. We're buying autumn stocks now, so good-bye cotton fabrics. We have some exquisite Silk Tissues in solid colors, printed effects, corded, satin and open work stripes. A few are in remnant lengths, enough for a waist or child's frock, but many pieces are full dress patterns. You will appreciate this beautiful material more when it is introduced at the regular price, 50c. a yard. Silk Tissue at 25c. suggests a shoddy imitation. A 50c. fabric of unimpeachable quality and beauty for 25c. Isn't that clear? Still a few of the Mousselines de soies, reduced from 60c. to 25c. Perhaps some friend availed of this tempting bargain when it was offered recently. If you have seen the goods "made up" further words of commendation are superfluous.

STATE PRIMARY.

It is Reported the Democratic Executive Committee Will Order One to Nominate Ticket.

FRAZER, KY., July 2.—It is all settled, and there will be a primary election called to nominate Democratic candidates for State offices from Governor down. The majority of the State Central Committee has so expressed itself, and there will be no back-down. That is the report as given out semi-officially, but reliably, here to-day.

This is a decidedly new departure in Kentucky, and the politicians are divided as to whether the new method will be a success or not, as compared to the old-fashioned Democratic conventions. Of course on the committee the friends of one candidate are dictating the new method, but that will make no difference if the plan proves to be a harmonious way to select candidates.

There has been an intimation that the primary might be called for a year ahead, but that seems hardly probable in face of the vigorous protests that have been made to early conventions or primaries.

Quite a number of prominent Democrats have expressed themselves as favoring primaries to name State officers, and to-day a letter from Senator Joe Blackburn to Prison Commissioner James M. Richardson was given out for publication, in which the Senator says:

UNITED STATES SENATE,
WASHINGTON, D. C., June 27, 1902.

To James M. Richardson, Glasgow, Ky.—My Dear Jim: Accept my congratulations upon your editorial of 13th on primary elections. It was a strong article, well put, unanswerable. I hope to live long enough to see it become the universal practice of our party throughout the country and to see United States Senators elected by the people. When these two things are accomplished I will be satisfied. Sincerely your friend,

"J. C. S. BLACKBURN."

Democratic candidates for State offices may as well be prepared to put up their share of money to cover the cost of a State primary, which is variously estimated at from \$22,000 to \$35,000.

GREAT CROWD

Saw the Ball Game at East End Park Friday—Maysville Won.

Yesterday afternoon was a great day for the initial game between the Red Men and the regular base ball team of this city. The regulars made a fine appearance in their new uniforms, and their playing was correspondingly fine. As all were stars it is needless to give the game in detail. Manager Slack deserves special credit for numerous accommodations. Larry was in the game from start to finish, and his work at short was par excellence. Dawson in left and Mitchell at second were features of the game. The following is the score by innings:

Dr. C. Kackley, formerly of this city, died Thursday morning at 8 o'clock at his home at Capon Bridge, W. Va., where he had been living for some years. His remains will be buried at that place. Dr. Kackley would have been seventy-seven years of age in August. His early and middle life was spent in the practice of medicine at Poplar Plains, Hillsboro and Aberdeen. He leaves one son—H. A. Kackley, of Flemingsburg, and two nephews—Messrs. J. T. and J. C. Kackley, of this city.

THE GUESSERS.

Barkley's Flag and Star Contest Brought Them Out in Great Numbers.

Names of Winners.

Guessers have been busy for three months in their efforts to name the number of stars on the big flag at Barkley's shoe store, and many of them will be very much surprised when they learn how wide they missed the mark.

The work of counting the stars was quite a task but Mr. H. C. Curran was equal to it. The flag was cut up in small pieces, and the number of stars on each piece was then counted, the number being written on the back of the slip and the slip preserved. The grand total showed 11,717.

The names of the successful guessers are given elsewhere in Barkley's advertising space.

Over 15,000 guesses were made. The firm thought at first that 10,000 coupons would be sufficient, but the guesses kept pouring in until it was necessary to print 5,000 additional coupons, and then the number was entirely exhausted on the closing day, and a number of written coupons had to be used.

It pays to use printer's ink, judiciously and liberally.

Judge Cochran has issued a temporary restraining order in favor of the L. and N. to prevent the collection of \$32,099 of the State franchise tax bill of \$51,180 assessed against the road for last year. PROPOSALS will be received, to be opened at 2 o'clock p.m., July 12, 1902, for the sale to the United States of a suitable site, centrally and conveniently located, for the Federal building to be erected in Maysville, Ky. A corner lot, approximating 130 by 150 feet is required. Each proposal must be accompanied by a diagram of the land, showing the dimensions of adjacent streets and alleys, grades and the character of four-lane, obtainable, etc. Any improvements on the land must be removed by the vendor within thirty days after written notice, and the vendor shall pay all expenses connected with furnishing evidence of title and deeds of conveyance. The right to reject any proposal is reserved. Each proposal must be sealed, marked "Proposal for Federal building site at Maysville, Ky." and mailed to the SECRETARY OF THE TREASURY (SUPERVISING ARCHITECT), Washington, D.C. H. A. TAYLOR, Assistant Secretary.

BARKLEY'S

—————

A GOOD RULE to Follow

In estimating the amount of paint needed for any given surface is to divide the number of square feet by 200. The result will be the number of liquid gallons needed for two coats. If an artistic job is wanted, go over any spots, particularly if they are greasy, with a saltpeter wash before the color is put on; they will then take the paint. It is worth a good deal to be certain you have used the best material possible. You can be sure of this if you use the United States Paint Company's goods. We have it in all shades, ready for use. There is nothing better made.

Don't Fret Your Life Away "shooing" flies and "chasing" other insects from the house when we offer you protection so cheaply. Adjustable Window Screens and Doors, with all necessary hardware, for much less money than you can afford to have them made elsewhere.
